

WHAT WE BELIEVE

Loxafamosity Ministries, Inc. (LMI), the organization behind Abort73.com, believes that “secular” arguments are invaluable and even sufficient to demonstrate that abortion is an injustice of historic proportions, one which systematically destroys the most innocent and helpless members of the human race. You needn’t believe in God to oppose abortion. Anyone who cares about human rights, and understands that the right not to be killed outweighs the right not to be pregnant, cannot support abortion.

At the same time, we believe that there is no such thing as a truly “secular” argument. Human rights must come from somewhere, and if they’re not God-given, they’re arbitrary and baseless. Public policy can never be established outside of some kind of absolute moral framework. In this country, that framework is built on biblical principle. Though the foundation is being systematically destroyed through the theology of evolution, the building, on some level, still stands. Those who believe evolution in principle, cannot live with it in practice.

Loxafamosity is anchored on the infallible Word of God, believing that the Bible is sufficient and authoritative for all matters of faith, life, and godliness. We affirm that God exists in three persons (Father, Son, and Holy Spirit), that He spoke the universe into existence in six days, that all men have sinned and fall short of God’s glory, that the wages of sin is eternal damnation and that the only way to be reconciled to God unto salvation is by being united by faith to the substitutionary work of Jesus Christ our Lord, who came to earth as a man, lived a perfect life, died on the cross, was buried three days and rose triumphantly from the dead.

We believe that the best way to eliminate the injustice of abortion is to educate young people with the massive body of evidence that stands against it. We are not educating people into a new morality, but rather into a more consistent application of their existing morality, one which already holds that it is wrong to kill innocent human beings. While we recognize that abortion is symptomatic of the much greater problem of sin, it is a symptom which claims the lives of thousands of our unborn neighbors every year. We cannot be silent.
