

RECEIVED MAY 05 2008

\_\_\_\_\_ certify that, with the exception of one twenty-six week aborted fetus photo (decapitated head in tongs over jar), I personally videotaped and photographed every one of the abortions in progress and aborted embryonic and fetal tissue used by the Center For Bio-Ethical Reform. In so doing, I videotaped and photographed large numbers of abortions at numerous abortion clinics in various locations. Without exception, these images were obtained at abortion clinics which perform elective pregnancy terminations and the images have not been altered in any way."
